

316 Stainless Steel Deck Hinge

You are welcomed to come to our factory to buy the latest selling, low price, and high-quality 316 Stainless Steel Deck Hinge, POWER MARINE looks forward to cooperating with you. We follow the quality of rest assured that the price of conscience, dedicated service. We have been specialized in marine hardware for more than 25

years. Our product is made of 316 stainless steel, which has good corrosion resistance. We can provide high quality products and competitive prices, and we look forward to becoming your long-term partner in China. Welcome to contact us.

316 Stainless Steel Deck Hinge

Product Introduction

High quality 316 Stainless Steel Deck Hinge is offered by China manufacturer POWER MARINE. Buy 316 Stainless Steel Deck Hinge which is of high quality directly with low price. We follow the quality of rest assured that the price of conscience, dedicated service. 316 Stainless Steel Deck Hinge has a longer service life in seawater, ultraviolet light and humid environments. We can provide high quality products and competitive prices, and we look forward to becoming your long-term partner in China. Welcome to contact us.

Product Parameter (Specification)

Product name	316 Stainless Steel Deck Hinge
Specification available	Multiple sizes
Standards that follow to	ISO 9001, CE, TUV, CSS, SGS.
Samples available	Yes.
Packing method	Bubble bag+Wooden carton

Shandong Power Industry and Trade Co., Ltd.

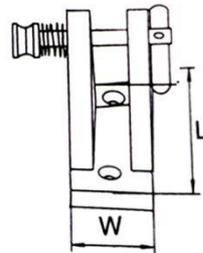

Address: Chengyang District, Qingdao, Shandong Province, China

Tel: +86-15865772126

+86-0532-83875707

E-mail: andy@hardwaremarine.com

Production lead time	10-15 days for a 20ft container, 20-25 days for a 40ft container.
Warranty time	Support returns and exchanges
Payment term	T/T
FOB loading port	Qingdao China

Code	Lmm	Wmm
PM5402	61	18.7

Product Feature And Application

While determining the exact history of 316 Stainless Steel Deck Hinge is challenging, stainless steel as a material has been used for many years in a variety of marine applications. The use of stainless steel in the marine industry dates back to the early 20th century, when advances in metallurgy and manufacturing technology made it possible to produce corrosion-resistant alloys. Stainless steel is a steel alloy containing at least 10.5% chromium, which forms a thin passivation layer on the metal surface. This layer provides protection against corrosion, making stainless steel an excellent choice for marine environments exposed to salt water, moisture, and other harsh conditions. As boat builders and manufacturers recognized the benefits of

stainless steel, they began incorporating it into a variety of components, including deck fittings, hinges, cleats and other hardware. 316 Stainless Steel Deck Hinge are popular for their durability, corrosion resistance, and aesthetics. Over time, advances in stainless steel production technology and alloy composition have further improved the quality and performance of 316 Stainless Steel Deck Hinge. Today, 316 Stainless Steel Deck Hinge are available in a variety of grades, such as 316 stainless steel, which is highly corrosion-resistant in marine environments. The design of 316 Stainless Steel Deck Hinge has also continued to evolve to provide improved functionality and ease of use. Deck hinges are typically designed to accommodate mounting or pivoting points for a variety of applications, such as attaching a bimini top, canvas cover, or other accessory to a boat's deck. Overall, the use of stainless steel in marine deck hinges has revolutionized the industry by providing boat owners with a durable, low-maintenance, and long-lasting hardware solution.

4.Product Details

(段落中至少带一个关键词，配上产品细节图片，同行的产品的对比图等)

Marine 316 Stainless Steel Deck Hinge usually have the following features:

Corrosion Resistant: They are designed to withstand the corrosive effects of salt water, moisture, and other harsh marine elements. They are made from stainless steel alloys with high corrosion resistance, such as grade 316 stainless steel.

Durability: Stainless steel is known for its strength and durability, making it an excellent choice for marine applications. 316 Stainless Steel Deck Hinge are designed to withstand the rigors of use in the marine environment, including exposure to UV rays, wind and waves.

Polished Surface: 316 Stainless Steel Deck Hinge often have a polished surface, which not only enhances their appearance but also provides additional protection against corrosion.

Mounting Options: Most Deck Hinge come with a variety of mounting options to suit different applications. They may have pre-drilled holes or slots to facilitate mounting to a boat's deck or other mounting surface.

Swivel function: Some marine 316 Stainless Steel Deck Hinge are designed with a swivel function to adjust the angle and position. This feature is

especially useful for attaching bimini tops or canopy covers that need to be easily folded or adjusted.

Secure fastening: 316 Stainless Steel Deck Hinge often come with secure fastening mechanisms, such as screw-in clamps or quick-release pins, to ensure a strong and secure connection between the hinge and attached accessories.

Aesthetics: 316 Stainless Steel Deck Hinge are often chosen for their sleek and modern appearance, which enhances the overall aesthetics of the vessel.

Loading & Shipment

Thanks to superior quality, we have been establishing a close & long business partner relationship with the customers from more than 30 countries, and we've gotten so many positive feedback regarding the quality.
